

Technical Data Sheet

Product : TecXa 25
Revision : 1.2

TecXa 25

Product Introduction:

TecXa 25 is an emulsifier and stabilizer for emulsion polymerization and latex compounding. It is sodium salt of Linear Alkylbenzene Sulfonic Acid.

Physical Properties:

Color appearance	Light yellow
Color (Hazen)	200 max
pH (5%)	7.0 - 8.0
% Anion Active Matter	24.0 – 26.0
% Unsulfated matter	1.0 max
% Sodium Sulfate	1.0 max
% Volatile matter	73.0 – 77.0
% Total Solid Content	25.0 – 27.0

Handling Precautions:

Care should be taken to ensure that workers use safety face mask or other eye protection in the course of handling as any contact with the human skin, eyes, etc. could result in severe irritation, burns and injury.

In case of eye contact, flush with plenty of water and seek prompt medical attention.

Transportation Handling:

TecXa 25 should be stored in a cool well-ventilated area away from sunlight and heat.

Storage and Packing:

TecXa 25 must be stored in closed storage area, protected from direct sunlight and best at temperature below 35°C. It is in 120kgs and 200kgs packing.
